LUTHERAN SYNOD CONCLUDES WORK TODAY

Yesterday's Proceedings of Body in Session in Wilmington—Greetings Received From Tennessee Synod—Much Business Transacted as Synod Nears Close.

Wilmington, May 12.—The larger part of the morning session of the Lutheran Synod was occupied by the report of the commission recommending consolidation of the North Carolina College with Lenoir College.

Rev. M. O. Krupps, financial agent of the Theological Seminary, of Columbia, addressed the synod.

Rev. J. A. Morehead, president of Roanoke College, and president also of the United Synod, is present.

At the close of the afternoon session the Synod was given an outing to Wrightsville with supper there. There will be no evening session. Business will not be concluded before Saturday evening. A number of members will remain Sunday.

The fraternal message from the Tennessee Synod of the Evangelical Lutheran church to the Synod of North Carolina, which was delivered by Rev. J. L. Miller, of Hickory, was heard with special interest.

Mr. Miller referred first to the fact that the Synods of North Carolina and Tennessee became two separate bodies in 1820, and that during these ninety years each body has been making history for itself, and the chief aim of both bodies has been through all these years, and is at the present time, the same. He then said that the two bodies are growing closer together and that during the annual meeting of the Tennessee Synod which was held in Lincolnton, in September of last year, a commission from the North Carolina Synod bore a fraternal message to that body and this Synod extended the "olive branch" for closer fellowship. He thus said that only time could show whether it would be better for the two Synods to unite or to continue to labor as two separate bodies, but that whatever may be best, the members of both bodies will continue to work for the same objects.

Mr. Miller urged especially a fuller realization on the part of both Synods of the great responsibility upon them with reference to the education of the young people.

He spoke also of the fact that he lives in that part of the state where people willingly drive forty miles through mountain country in order to hear a Lutheran sermon, and that if the sermon should be two hours in length there would be no complaint upon the part of those who heard him.

Rev. J. E. Shenk, vice president of Synod, occupied the chair while this address was being delivered, and at its close he delivered, upon the part of Synod, fitting response to the same.

Rev. W. B. Cline, representing the Lutheran Publication Board, located at Columbia, spoke to Synod in the interest of that board. He urged that Synod give to the board hearty sympathy and support.

Rev. S. C. Crabtree, who represents the Orphanage Home of the United Synod of the South, was invited to address Synod at this time, but he requested to be heard later in the session, and his request was granted.

Several Lutheran ministers, from other Synods, were announced as present, and they were received as advisory members. Rev. A. D. McClure, D. D., pastor of St. Andrew's Presbyterian church, Wilmington, was present also, and the courtesy of Synod was extended to him.

The president appointed, at this time, a committee of three to recommend to this meeting of Synod amendments to the constitution of the body, action on the recommendations to be taken at the next meeting. The following named members constituted the committee: Rev. V. Y. Boozer, Rev. G. H. Cox and Rev. J. E. Shank.

The reports of the trustees of the Collegiate Institute and Mount Ansoena Seminary, at Mt. Pleasant, and of the Theological Seminary, at Charlotte, were submitted, showing the work in these schools to be gratifying.

The report of the mission stations of Synod were submitted by the pastors. These stations are located in the following places: Lexington, Barber, Spencer, Winston-Salem, High Point, Mooresville and Landis. The work of the church has made progress at all of these points during the year.

CENTRAL HIGHWAY PATHFINDERS REACH THE STATE CAPITAL

Were Royally Received—Good Roads Rally Today—Enthusiasm Greets the Scouts all Along the Line—President Varner is Delighted.

Special to Telegram.

Raleigh, May 12.—The Pathfinders for the Morehead and Beaufort to Raleigh section great Central Highway from seashore to Tennessee line arrived here this evening. They are being royally entertained pending the big Wake county good roads rally tomorrow at noon.

President Varner of the Central Highway Association, who heads pathfinders, says they have received a continuous ovation all along the line and there is the greatest possible enthusiasm everywhere.

Dr. Joseph Hyde Pratt, State Geologist, also of party, says even where there have arisen contests over the exact route of the highway, the rivalry has been of the most friendly sort and the outcome has been that both routes go down on the map for tourists to take their choice.

President Varner says it looks already like the highway will have to be double tracked.

Pathfinders start again from Marshall for the run eastward via Asheville to Statesville. Then a week or so later there will be a final run from Statesville to Raleigh, completing the pathfinding run for the whole length of the State. Success far surpassing highest expectations of the Central Highway workers is already attending every effort.

NORMAN LEWIS, NEGRO MURDERER, WAS ELECTROCUTED

Special to Telegram.

Raleigh, May 12.—Norman Lewis, the slayer of Chief of Police Stallings, of Spring Hope, Nash county, died in the electric chair at 10:30 o'clock this morning in the State's prison here. He died without making any statement whatever, as to the crime for which he paid the death penalty. With him as spiritual adviser was Rev. J. E. King, rector of the negro Episcopal church here. He seemed remarkably composed when he was led into the death chamber and strapped into the chair. The first voltage of 1,800 was turned on by Warden Sales at 10:27 and a second voltage was given, the body being pronounced lifeless within eleven minutes. The body was turned over to the State Board of Anatomy and will be assigned to one of the medical colleges for dissection.

The crime for which Lewis died was committed last September. Chief of Police Stallings had gone to the home of Lewis to arrest him for selling liquor. His wife, who came to the door, denied that West was at home. The officer was pressing his way into the house when he received a load of shot in his abdomen, the wound proving fatal a few days later in a Richmond hospital. It developed that West was really in the house and fired the fatal shot. Crowds of indignant citizens scoured the country for days thereafter before he was finally arrested at Henderson where he was about to board a northbound train in an attempt to get out of the state. He was hurried to the State prison to avoid lynching, that was threatened if he should be carried back into Nash county at that time.

The Progressive Farmer is to erect at once a fine three-story printing house and office building on Martin street between Salisbury and McDowell. It will be on "printer's row" along with the News and Observer building and the big printing house of E. M. Uzzell Co., State printers. It is to have pressed brick front and will be especially adapted for this great agricultural journal that circulates throughout the South. A fine new Hoe press with a capacity of 12,000 to 24,000 per hour according to the size of the paper printed will be install-

Ohio's Legislative Bribery Scandal One of the Notable Political Sensations of the Generation.

The indictment of a number of members of the Ohio state legislature on charges of having taken money in return for their votes either in procuring the passage or defeat of certain bills bids fair to reveal a political scandal of gigantic proportions. The legislators indicted are not members of any one political faith, Republicans as well as Democrats being numbered among the accused. The case was worked up by Detective William J. Burns, who acquired notoriety in the San Francisco bribery and Oregon land fraud cases and more recently in the Los Angeles Times dynamiting affair. Senator George K. Cetone and Representative George B. Nye, whose pictures are here shown, are among the prominent legislators indicted. Prosecuting Attorney E. C. Turner promises to vigorously press the cases to trial.

ed. The building the plant now occupies on an adjoining lot is to give place, along with the corner building, to the fine new hotel that Jones & Bailey are to erect for E. H. Ricks and associates of Rocky Mount.

During the commencement of Shaw University, the noted negro school here, just held diplomas were awarded to seventy-eight graduates in the various departments of training, including medicine, pharmacy, theology, bachelor of arts, bachelor of science, normal department, art. The annual address was by Rev. Judson B. Thomas, D. D., of Chicago, his theme being "Fraternalism." President Chas. F. Maserve declared that the session of the University just closed has been the most successful in its history.

Early this morning, four miles north of Raleigh, Goodwin Washington, a train hand, fell from a Seaboard Air Line freight train and was instantly killed. His body was brought to Raleigh and prepared for shipment to Boykin, Va., where he lived. He was 24 years old.

SECRETARY OF WAR DICKINSON RESIGNS

His Successor is Henry L. Stimson, Republican Politician of New York---Business Reasons Assigned for Resignation.

Special to Telegram.

Washington, May 12.—It was announced at the white house tonight that Secretary of War Jacob McG. Dickinson has resigned. His successor will be Henry L. Stimson, recently Republican candidate for governor of New York.

No reason other than the demands of private business is given for the retirement of Secretary Dickinson. There appears to be no foundation for rumors of friction or other causes of resignation other than Mr. Dickinson's desire to look after his business interests in Tennessee and Kentucky. He will return to his home in Tennessee immediately after Mr. Stimson qualifies as his successor and expects to devote his entire attention to business, not returning to the practice of law.

President Taft will confer with Mr. Stimson in New York tomorrow or Sunday but the new secretary will not be sworn in until the President's return to Washington on Monday. The new secretary first came into national prominence as district attorney in New York during the investigation of the sugar trust cases.

President Taft in talking with friends tonight expressed gratification at Mr. Stimson's appointment. He said he had the highest personal regard for him and believed the appointment would prove acceptable to New York Republicans. Senator Root unqualifiedly approved of the appointment when interviewed.

ASSISTANT TREASURER UNITED STATES APPOINTED.

Washington, May 12.—The announcement of the appointment of C. S. Milinton, of Herkimer, N. Y., as assistant treasurer of the United States was made public today.

BAN JOHNSON LOST BIG DAMAGE SUIT

Special to Telegram.

New York, May 12.—The jury in the case of John M. Ward against Ban Johnson awarded the former a verdict for $1,000 damages today. Ward was sueing Johnson for $50,000 for slander. Johnson is President of the American League Baseball Association and is a member of the National Commission. He is one of the best known baseball moguls in the United States.

GOVERNMENT CONFIDENT IN BEEF TRUST CASES.

Special to Telegram.

Chicago, May 12.—In commenting on Judge Carpenter's decision against the beef trust District Attorney Sims said today: "The conviction of the beef barons, and under the law that means a term in prison, is to my mind inevitable. The government feels confident that it will be able to make out a strong case against the men indicted."

MEXICAN GOVERNMENT MASSING STRENGTH IN SOUTH.

Special to Telegram.

Mexico City, May 12.—The government has now left the entire northern border to Madero and is concentrating its efforts in an attempt to save Torreon. It is now believed that the next big battle will be fought at Torreon. A large body of rebels under Louis Moya are preparing to attack the place.

LAYMEN'S MISSION MOVEMENT MEETING IN CITY YESTERDAY

Attended by General Secretary Charles Pratt and Number of North Carolina Workers—Work Planned for State Secretary.

Charles H. Pratt of Atlanta, General Secretary of the Laymens' Missionary Movement, met the State Executive Committee of North Carolina yesterday in this city for the purpose of assisting in the formation of plans for holding county conventions throughout the State. The conventions will be held for the purpose of stirring enthusiasm in missions and especially to arouse interest in the laymen's movement. This meeting was attended by members of the committee, pastors and laymen of this city. Chairman F. P. Hobgood presided and in the absence of Secretary J. Norman Wills, E. J. Davis filled that position.

State Secretary McEachern, who has recently been called to this position, was present at the meeting yesterday and a campaign of work was mapped out for him. He is a student in Union Seminary in Richmond, and is a young man well qualified for this position. He will have an office in the Commercial National Bank here, the officers of the bank having tendered space for that purpose.

The conventions which it is expected to conduct will be started at once, and the first meeting will be held at Mt. Airy, if the necessary arrangements can be made. Secretary McEachern will have charge of the work of planning for these conventions and his efforts will be under the direction of the Executive Committee, composed of F. P. Hobgood, J. Norman Wills and E. J. Davis. It is probable that the proposition to hold the first convention in Mt. Airy will be placed before the churches of that place next Sunday by Secretary McEachern and some of the laymen of this city, who will go there for this purpose.

NORTH CAROLINIANS HOME FROM THE PEACE CONFERENCE

Special to Telegram.

Raleigh, May 12.—Rev. J. J. Hall, of Fayetteville, and W. J. Hubbard, of Goldsboro, have returned from the National Peace Congress at Baltimore, May 3 to 6, having been appointed as delegates by Governor Kitchin. They have prepared and sent to the Governor an interesting report of their trip and the sessions of the Congress. They write the Governor that the Congress was especially marked by the presence of the President of the United States, and a number of the most prominent members of Congress, leaders of great educational institutions of the country, captains of industry, ministers, philanthropists, journalists and statesmen. Such men as Cardinal Gibbons, Andrew Carnegie, Edwin Ginn, Lyman Abbott, Hon. Jno. W. Foster, and Senator Burton. Europe, Asia and Africa were also well represented. The North Carolina delegates regard the wide publicity that will be given the addresses by the distinguished visitors as one of the greatest benefits that will come from the Congress. They declare that the Congress means a great forward movement in promoting peace on earth and the hastening of the time when law and not force will rule the world.

Peabody Fund Will Go To Southern Schools.

New York, May 12.—The committee in charge of the Peabody Educational Fund has unanimously decided to recommend to the trustees that the fund be distributed and the trusteeship closed. It is expected that about $2,300,000 will be divided among Southern institutions for the training of teachers.

OLD MUSKET EXPLODES

Used in Revolution, It Kills Little Boy.

Mineola, L. I., May 12.—In a Wild West game at his home at Happague this afternoon, six-year-old Johnnie Richardson found a Revolutionary musket and leveled it at his four-year-old brother Fred. The old musket was discharged, tearing the upper part of the lad's body almost to pieces. There is no hope for his recovery.

17-YEAR LOCUSTS AT BATTLE GROUND

Their Appearance Reported There After Period of Seventeen Years—Some Locust Stories That You May or May Not Accept as Unvarnished Truth.

L. R. Noah, of the Battle Ground, was in the city yesterday. Mr. Noah reports that locusts are already on hand in the vicinity of the Battle Ground in large numbers. The locusts come every 17 years, being in evidence last in 1894. They usually inhabit certain sections of the country, always going in great numbers. The Battle Ground is a favorite place for the locusts, the insects seeking heavily wooded places. When they were here before they appeared in certain sections in such quantities that they were gathered by the bucket full and fed to swine, the porkers enjoying the banquet immensely.

It is stated that the locusts after living several months go into the ground and remain beneath the surface for seventeen years. Once they have started towards the surface nothing will deter them from their course. Another remarkable fact is that the locusts appear in different sections in different years, but there is always a period of seventeen years between their appearing.

Several years ago a remarkable incident occurred in a western city that had been built up during a decade. According to a news dispatch sent out from the city in question the citizens were amazed to find numerous holes through the cement sidewalks and brick streets. An investigation showed that this was the work of locusts. They had gone into the ground and the streets and sidewalks had been laid during their stay underground. When the time for their appearance drew nigh they bored upward and struck the brick and cement. However, they bored through the cement with apparent ease and so numerous were the pests that many sidewalks were completely ruined.

RACE WITH WATERSPOUTS.

Vessel Proves Speedier, and Leaves Them Far Astern.

New York, May 12.—A race with water spouts off the Virginia coast is recorded in the log of the steamer Metapan from Colon and Kingston, which docked here today. The spouts were seen April 22, and propelled by a friendly wind they chased the vessel for a quarter of an hour. The ship proved the speedier, however, and left the spouts far astern.

MRS. SULLY LOSES SUIT.

She Is Ordered to Pay $20,000 and Interest to Colonel Corr.

New York, May 12.—Mrs. Emma Sully, wife of Daniel J. Sully, once called the "cotton king," lost the suit today brought against her by Colonel Peter H. Corr, of Taunton, Mass., to recover $20,000. A sealed verdict opened today found for Colonel Corr in the full amount, with interest from 1904, making $28,536. Mrs. Sully maintained that the money was not lent, but had been given her to aid her husband when he was in difficulty.

TWO GIRLS DROWN

Bathing in Alabama River and Got Beyond Depth.

Montgomery, Ala., May 12.—Ella Moody, aged sixteen, and Annie Belle Grace, aged twelve, were drowned in the Alabama river near here late today. Mrs. R. S. Moody, the mother of Ella Moody, went to the rescue of her daughter, but was almost drowned herself. She was rescued by some men. The Moody girl could swim, and lost her life in trying to save the Grace girl, who got out beyond her depth.

HOFFSTOT JURY DISAGREES

Car Maker and Banker to Be Arraigned Monday on Bribe Charge.

Pittsburg, May 12.—The jury in the case of Frank N. Hoffstot, car manufacturer and banker, tried on charges growing out of the Councilmanic graft scandal, was discharged late this afternoon, being unable to reach an agreement. The jury had been out a little more than 24 hours.

At the District Attorney's office it was said that Hoffstot will be placed on trial Monday on a charge of bribery. In the trial just ended conspiracy to bribe was the charge.

The county that is afraid to spend money for road improvement will never have good roads, as no scheme has yet been devised for building improved highways without cost,

The way to get good roads is to go after them as Iredell county is doing. A bond issue of $400,000 was voted in that county by a majority of nearly thirteen hundred. There is evidently some strong good roads sentiment in Iredell.

One provision of the new election laws of Illinois prohibits the distribution of campaign cigars. In certain quarters that will be regarded as an effort to strike a blow at the tobacco trust.

Editor Hemphill of the Richmond Times-Dispatch has been down to Raleigh and on his return to Richmond proceeded to give the North Carolina city a "write-up", beginning "Raleigh is the capital of North Carolina." His nomination will not be secured through newspaper support alone, however. The newspapers are merely pointing the way in which the popular mind is trending.

The members of this party will spend June 1st and 2nd in Guilford county.

ARE YOU INTERESTED IN THE AUTOMOBILE TOUR ?

Every progressive citizen of Greensboro ought to be able to honestly and emphatically answer this question in the affirmative. This should be the case, even though you are not an automobile owner and do not expect to join this tour and go over the route of the proposed Greensboro and Roxboro railroad.

Your interest should center in the railroad building proposal, if you are not at all interested in automobiles or reliability contests. The tour is planned for the purpose of boosting the movement to build the railroad from this city to Roxboro. That is the main idea of the trip and the basis upon which it is being planned and will be successfully carried forward. Of course, it will afford considerable pleasure to automobilists and will secure some advertising for the various makes of cars, but the principal good to be derived by this city and the section through which it is desired to build the proposed railroad in the enthusiasm which will be aroused for this movement.

The tour will doubtless, also, stir some good roads enthusiasm in a large section of several counties. Automobilists have been in the forefront of the ranks of good roads advocates during the past several years, and wherever they go they carry road improvement ideas and endeavor to create good roads sentiment. The trip will give good roads as well as the new railroad a boost.

WHAT NORTH CAROLINA EDITORS ARE SAYING.

Governor Grows in Favor in Iredell.

Gov. Kitchin made a good impression on the Iredell folks Wednesday. They were pleased with his address and pleased with the man. The Governor had few followers in Iredell when he was a candidate for Governor but he has grown on the Iredell people since then and he has many friends in the county.—Statesville Landmark.

Great Majority for Good Roads.

The majority for the road bonds is now figured at 1,248 instead of 1,142, as given Wednesday morning. The majority in Coddle Creek township was 276 instead of 190, as reported, and the majority against bonds in Union Grove was less than reported. 'Twas a great victory, but not so surprising under the circumstances. While there was much opposition, the majority of the people came readily to the support of the measure when they thoroughly understood it. Tuesday's work means much for Iredell. The really important work is yet to be done, however, and that is to get the best results for the money expended and to so expend it as to benefit the greatest number of people. There will of course, be differences of opinion as to where the roads should be improved and many conflicting claims. But if the task is approached with conservatism and wisdom the people—those who have opposed as well as those who favored—will have to remember May 9, 1911, as marking a new era in the county. Now let's all get together for the upbuilding of Iredell.—Statesville Landmark.

This Is Sound Sense

Those Anson county people who voted against good roads because they hate automobiles are a hundred years behind the times. They remind us of the old lady who didn't want a telephone line to cross her farm because she was afraid it would carry the family conversations to all her neighbors, and of the man who fought a railroad because he thought the trains would run broadside and sweep everything off his farm. The automobile has come to stay, is as much a fixture as the farm wagon, and in another decade the children of those Anson farmers and may be some of the farmers themselves will be using the motor for pleasure or for profit, scooting to town in an auto or hauling farm products on trucks to the market—that is, provided they can catch up with the rest of the world in ten years. What a silly thing it is for a man to remove his nose to spite his face.—Catawba County News.

PREPARING FOR SUNDAY

(By CARA REESE.)

If there be one logical time more than another when individuals should be face to face with themselves and look upon their respective life and conduct impartially, it is on Saturday night in preparation for Sunday.

It used to be that the Sabbath was supposed to begin with sundown on Saturday. After that there were family Bible readings, prayers, catechising, and religious exhortation generally. The grandparents tell about it and now and then parents somewhat along in years refer to the peaceful, prayerful twilight and the calm and sacred preparation for the coming morrow.

But there is not much of this religious peace and quietness these days. The Cotter's Saturday Night is now but a sweet and holy memory. The world nowadays "goes to market" on Saturday night. If not yet burdened with the responsibility of bargaining for provender it attends the nickelodeon. If of an investigating turn of mind it wanders into the "five and ten" emporium. It buys new shoes, it deposits or draws from banking institutions, it promenades the bazar arcades or the public avenues. Or, again, it attends the theaters or enjoys a club banquet, or falls in with any and all delights planned to catch the Saturday nighters.

The fact of the matter is, that there is no longer any set or special time for the individual to face self and to see self as others see it. And yet this face to face encounter is bound to come and with it the illumination which frequently reveals that which is uncomplimentary. There are more individuals face to face with themselves and their errors at the present time than ever before and who knows but what in the future the old-fashioned consecration of Saturday evening may be restored.

There are granite hearts face to face with themselves and the discovery is made that there is a standard of conduct in this supposed callous world that does not bend to high estate the lure of gain, or the glittering indulgence. There are selfish hearts face to face with themselves and the discovery is made that there is a norm of having that discountenances greed, private advantage and exclusive interests. There are unrighteous hearts face to face with themselves and the enlightenment comes that even the temporal has no welcome for the scoffer, that blasphemer or the one that maketh or liveth a lie. Ah, there are any number of trembling souls face to face with themselves and seein themselves as others see them.

Perhaps the Saturday evening consecration may be a feature in the family life by and by. The glitter of the street is alluring. The toilers of the week have but scant time for leisure beyond the Saturday evening hours. It is right that there should be frolic and exercise. But alas, the Sabbath morning dawns to find the strollers still in the streets, the shops as yet unclosed and the haunts of pleasure not yet deserted. Even the younger parents and the sleepy broods seem to be out for the frolic. Not this Saturday night, perhaps, but some other Saturday night, perhaps, but some other Saturday night, there will be reform—a face to face challenge.

"My husband," remarked the caller, "is always interested in some kind of 'ology."

"My husband isn't," said Mrs. Lapsling, "but he has 'em just the same. He suffered from the neurology last night so bad he couldn't sleep a wink."—Chicago Tribune.

The lady who makes the anti-suffragette epigrams steps forward and says, "It is the icebox and not the ballot-box that should interest women."

But, alas! for the epigram. Neither the ice-box nor the ballot-box is in it for a minute with the hatbox, the shoebox and the glovebox.—Cleveland Plain Dealer.

Advertising Talks

H. G. B.

MR. BARNUM, THE SUCCESSFUL SHOWMAN, is quoted as saying that it was necessary to the success of his business that people talk about it, that he would rather, if it were not possible for nice things to be said, that uncommentary remarks be made than not to be talked about. He insisted upon being talked about. He was a firm believer in advertising, for he realized that success meant keeping before the people. Some people do not consider advertising worth while, others resort to varied and different methods, buttons, posters, bill boards, dodgers, circular letters, magazines, NEWSPAPERS and innumerable other methods are pursued. All are good, at least it is well said that any form of advertising is better than no form. The concensus of opinion among the leading advertisers of the country is, that the columns of the leading newspapers furnish the cheapest and best medium. Compare, for instance, the cost of preparing and sending out ten thousand circular letters with the insertion of the same matter in a newspaper of from five to twenty thousand subscribers and perhaps ten to one hundred thousand readers, or the painting of signs, the distribution of buttons or the posting of bills compared with the cost and convenience of the newspaper, to say nothing of the results to be obtained. From these various classes it is clearly seen that a contrast favorable to the newspaper rather than a comparison is had.

IN GREENSBORO The Telegram, the paper that goes home, that prints all the news that is fit to print while the bloom is on it is the BEST and CHEAPEST ADVERTISING MEDIUM.

HAPPY THOUGH SINGLE

(By VIRGINIA HARLAN.)

In spite of woman's appreciation of independence, the goal at which most girls still aim is a happy marriage; but, as statistics show, there are not men enough to go around, and, moreover, as some prefer to remain bachelors to the end of their day, it is obvious that a certain number of women will be unable to find husbands and must be content therefore to live on in single blessedness.

It is quite possible to be happy though single, and to the girl who unsuccessfully angles after marriage without finding a suitor, and dreads the possibility of a lonely old age, we would say, by way of consolation: "Look around on your women friends who have made unhappy marriages and be thankful that your lot is not as theirs!"

Have an aim, have an occupation in life. Live more for others, less for yourself; think of the troubles you have been spared, not of the joys from which you are debarred. Include men among your friends and comrades, but do not mistake ordinary courtesy for anything more and break your heart because you are only bridesmaid, not bride.

There are worse things than spinsterhood that you might have to face. What, indeed, could be worse than an unhappy marriage?

Many a girl, merely for the sake of settling her future, has accepted the first man who proposed and taken the risk of a good or a bad bargain. Do not follow her foolish example, nor that of the girl who, being asked, "Why did you become engaged to John? You do not love him," replied, "No, but that horrid little Kathleen Crabbe adores him."

If you want to be happy look at the world through other people's spectacles as well as your own; live in no narrow realm, even though you do not go outside your own country, but be in tune with the universe; and if any bitterness lingers in your heart as you visit the homes of your happy married friends, and think that such conditions as surround them can never be yours, just look at the opposite picture and realize how many hundreds of women there are who would give their all to be as free as you are.

In the Wake of the Measles.

The little son of Mrs. O. B. Palmer, Little Rock, Ark., had the measles. The result was a severe cough which grew worse and he could not sleep. She Says: "One bottle of Foley's Honey and Tar Compound completely cured him and he has never been bothered since." Croup, Whooping cough, measles cough all yield to Foley's Honey and Tar Compound. The genuine is in the yellow package always. Refuse substitutes. For sale by Howard Gardner.

WARNING TO RAILROAD MEN.

E. S. Bacon, 11 Bast St., Bath, Me., sends out this warning to railroad men: "As conductor on the railroad, my work caused a chronic inflamation of the kidneys, and I was miserable and all played out. A friend advised Foley Kidney Pills and from the day I commenced taking them, I began to regain my strength. The inflammation cleared and I am far better than I have been for twenty years. The weakness and dizzy spells are a thing of the past and I highly recommend Foley Kidney Pills."

Saved Child From Death.

"After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, and doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." For coughs, colds, hoarseness, lagrippe, asthma, croup and sore lungs, its the most infalliable remedy that's made. Price 50c. and $1.00. Trial bottle free. Guaranteed by Fariss-Klutz Drug Co.

CURES PIMPLES QUICKLY

Simple Remedy That Clears Skin Quickly of All Eruptions.

For several weeks past Howard Gardner has done the biggest business he ever had in any one article in selling Hokara, the skin food that has won so many friends in Greensboro.

It has been found to be an absolute cure not only for all minor skin troubles, such as pimples, blackheads, herpes, acne, scaly scalp, complexion blemishes, itching fect, piles, etc., but for the worst sores, ulcers, or even chronic ezcema and salt rheum.

In spite of its unusual curative power, the price is trifling. To convince every one of its merits, Howard Gardner will sell a liberal sized jar for 25c.; larger sized 50c. And remember that if you do not think it does what it claims, you get your money back. You certainly can afford to try it on this plan.

TESTIMONIAL.

I wish to state for the benefit of anyone suffering from eczema, that I had eczema on my hand for some time and could find nothing that would cure it until I used Hokara. One 25c jar entirely cured me. Wm. Nichols, 621 1-2 Central Ave., Ft. Dodge, Iowa.

A Spring Suggestion by a Trained Druggist.

Appendicitis and many other ills come from Constipation and over-loading with food which the system cannot care for. The bowels must be cleared and antisepticised to give their normal functions and this should not be done by strong Cathartics, as every physician will tell you. Vick's Little Liver Pills have been the bowels and mild stimulation to the lazy liver and thus cure trouble in adults and children.

"I hadn't been talking with him three minutes before he called me an ass. what sort of a person is he?"

"Well, I never knew him to tell a lie."

Do Ghosts Haunt Swamps?

No, Never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous, and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at Fariss-Klutz Drug Co.

Talk to Mothers.

There is need in the home for cuts, bruises, sores and sprains, children and others are heirs to a real good antiseptic liniment, one which will not burn and hurt worse than the wound itself, and which will give the greatest relief and prevent scars. Vick's Liniment is prepared for this purpose. Take this suggestion from a trained druggist who knows.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

PROGRAM OF FIFTEENTH ANNUAL CONVENTION OF AMERICAN COTTON MANUFACTURERS' ASSOCIATION

A delegation of Carolina cotton mill men will leave next Wednesday for Richmond, Va., to attend the fifteenth annual convention of the American Cotton Manufacturers' Association, which assembles in that city Thursday and Friday, May 18 and 19. Headquarters will be maintained at the Jefferson hotel, one of the most palatial hostelries in the South. This is the third time that the association has met in the Virgini capital, a sufficient commentary upon the degree of welcome and wealth of hospitality dispensed. This meeting promises to stand out in the annals of the association for the reason that the tariff question will probably come up for considerable discussion.

There will be several special pullmans leaving Charlotte on the afternoon of Wednesday, May 17.

The Program.

Secretary C. B. Bryant has just issued the official program of the convention, which follows:

Thursday, May 18th..

The hospitality of the several clubs of the city will be extended to the members and guests of the convention.

Joys and Pangs of Memory

(By ALVA ARMSTRONG.)

Has the thought ever occurred to you of the great part that is played in romance by memory. Indeed, where would romance be were it not for memory, and, alas! its opposite, forgetfulness? Memory "is the treasure house of the mind wherein the monuments thereof are kept and preserved." Sometimes, perhaps, one would prefer not to preserve these monuments, however romantic they may be, but the preservation is not a matter of will.

A large proportion of the world's love songs deal with memory.

"The heart hath its own memory, like mind.
And in it are enshrined
The precious keepsakes into which is wrought,
The giver's loving thought."

So says Longfellow in a pretty poem, but he shows the other side of the medal in the lines:

"The leaves of memory seemed to make
A mournful rustle in the dark."

Many people are so constructed that they rather enjoy this mournful rustling and agree with Moore, who sang:

"For there's a joy in melancholy,
I would not, if I could, be gay."

For my part I prefer the sort of joy that is a little more merry and bright, but in this matter of memory most of the poets have gripped the more melancholy meaning.

"Oft in the stilly night,
E'er slumber's chain has bound me,
Fond memory brings the light,
Of other days around me."

That sounds a little more cheerful, though the poem is certainly in the minor key. But this sort of minor key is enjoyed by those in the hey-day of happy love affairs, and may bring some balm to those for whom, for one reason or another, the gates of love are closed.

The happy lover, man or maid, really does find a sort of "joy in melancholy" during brief partings from the loved one. He or she will brood with mournful happiness over the joys of yesterday when there are the joys of tomorrow to come. But, with love gone aglee, memory, more often than not, is bitter rather than sweet; at best a mixture in which the bitterness predominates.

DOMINIE ON THE DIAMOND.

Wins Applause Lining Out Two and Three-Baggers.

Clayton, N. J., May 12.—A baseball team has been formed here and in a practice game yesterday, Rev. Samuel Harker, pastor of the Presbyterian church, went out to the field. After acting on some of his suggestions, he was invited into the game, and he startled the young men by his ability as a player.

When he came to bat Mr. Harker had his eye and two and three-baggers seemed easy, while his base-running was a marvel.

Household Hints

To Keep Bread.

When bread has to be kept several days, if wrapped cerefully in paper so as to exclude the air, it will keep perfectly moist.

When making homemade bread a lump of lard the size of a walnut to a half a pint of flour will make it eat much less dry.

In Case of Fire.

To safeguard children from fire render their clothes as uninflammable as possible by the use of alum in the laundry. An ounce of alum to the last pan of rinsing water will make the garments so far uninflammable that if they were to come in contact will fire they would only smolder, not burst into flames. The same treatment is to be recommended for muslin or lace curtains.

To Remove Inkstains.

First well rub the inkstain with a ripe tomato, which has been cut in two. This has been tested on handkerchiefs, table linen, etc., the stain disappearing in the wash. It has also proved satisfactory on dark trousers, neither inkstain nor tomato juice showing after good sponging in rain water.

Household Wrinkles.

Soda is of great value as a water softener, but is very bad for the skin. If a little liquid ammonia is used intead the same result will be obtained and the hands will not suffer in consequence.

An excellent mixture for cleaning the bath, lavatory bowl, etc., is made by mixing together a little whiting and washing powder. Apply this to the part to be cleansed with a soft cloth wrung out of warm water, allow to remain a few minutes and then wash ligtly with some nice soapy water. This does not leave any scratches and will be found very effective in cleaning.

Many a man goes down hill, and then tries to blame it on the law of gravitation.

"You are always worrying," remarked the baseball magnate.

"It is the constant search for something new," explained the theatrical manager. "You know I have to cater to the tired business man."

"I don't let the tired business man worry me any. He roots with the others when he gets to the ball park."—Louisville Courier-Journal.

FINGERS AND FINGERNAILS

(By LURA STANLEY.)

A person with broad nails is usually of gentle nature, timid and bashful.

Those of us whose nails grow into the flesh at the sides are given to luxury.

Melancholy and sickly people have invariably pale or lead-colored nails, while persons of a martial, choleric nature have, as a rule, red and spotted nails.

Small nails are characteristic of the obstinate, and broad, elliptical nails of both students and persons of liberal sentiments.

Narrow nails indicate a quarrelsome disposition, and a white mark on the nails bespeaks misfortune.

It is also possible to tell the character from the little cushions or mound at the case of each flinger. If the mound is large on the first finger, for instance, it is a sign that the owner loves power, coupled with a desire to shine, a tendency to superstition, and a fondness for nature. If the mound be wanting, the person is narrow-minded and selfish.

A prominent mound on the second finger indicates prudence and probability of success. The reverse, however, indicates lack of ambition.

A large mound on the third finger—the finger of arts—proves that a man is amiable and hopeful, a delightful companion and an excellent friend. But if the mound be excessive, the results are disastrous. A love of notoriety converts the life into a vain-glorious existence, with a tendency to avarice and a certain direction towards envy.

An excessive mound on the little finger, too, indicates sharp practice, disastrous acutness, dishonorable trickery, and love of evasion.

When Were You Born?

Boys born in the month of September, October, November, December, January and February, are not so tall as those born in other months. Those born in November are the shortest. Girls born in December, January, February, March, April and May show a less strength of body than those born in the remaining months. Those born from June to November are taller, but the tallest are born in August.

Wigg—"I wonder why that Camden friend of yours is so ill-natured." Wagg—"I suppose every time he gets on a ferryboat it makes him cross."

WEALTHY MAN KILLS SELF.

Body Found in Park ,With Pistol Beside it.

New York, May 12.—Charles D. Garnett, said to be a retired paper manufacturer of St. Louis, shot and killed himself early today on Riverside Drive. Mr. Garnett came to this city six weeks ago. He has been in poor health and, with his wife, had spent the greater part of the last two years in traveling. He was missed last night from the apartment in the fashionable West Side section which they had taken, and at Mrs. Garnett's request a search was instituted for him.

The search resulted in the discovery of his body underneath a clump of shrubbery along Riverside Drive. There was a bullet wound in the head, and a revolver lay beside the body. Mrs. Garnett said her husband had suffered from nervous trouble for some time past. He was forty-nine years old.

The young clergyman may have a fine command of English, and still take orders.

SLEEPLESSNESS

Its Cause and Remedy.

Do you know what it is to lie awake nights, fidgety, restless, tossing about, counting 100 backwards, or sheep jumping over a fence, all in a vain endeavor to lose yourself in slumberland and get the rest which you so much need.

No one, unless they have been troubled with insomnia, can begin to to realize it's horrors and how wearing it is.

In nine cases out of ten it is simply a case of overworked nerves or derangement of the digestive system. Thousands of such case are being cured by Vinol. As proof we quote from a letter recently received from Marion, Ind.

"I could not sleep nights, was rundown, nervous, had no appetite and was all discouraged. Vinol made me well after all other remedies had failed. I sleep splendidly, and have gained in strength." Mrs. L. E. Heinlein. (We guarantee the testimonial to be genuine.)

We ask every person who suffers from sleeplessness or who is nervous or run-down to try a bottle of Vinol with the understanding that their money will be returned if it does not help them. Vinol contains no drugs or oil, and agrees with everyone. Farriss-Klutz Drug Co., Greensboro, N. C.

SPINNERS BLANKED BY DOYLE'S PATRIOTS

Greensboro Took Sixth Consecutive Victory by Score of 8 to 0. Eldridge Pitched and Delivered the Requisite Consignment of Unhittable Balls.

By winning again from Greenville yesterday the Patriots made it six straight victories. The score of yesterday's contest was 8 to 0. Eldridge was on the slab for the locals and held his opponents down to five hits, no two of which were in any one inning, and shut Smith's men out from run-getting. It was a good game, though one-sided almost from the start. Manager Smith made some changes in his infield line-up but the work of his men showed but little improvement over the day before. Four of Greensboro's runs were made in the third inning after an opportunity to retire the side was given.

Eldridge pitched good ball, kept his hits well scattered, struck out six men, and in other ways showed his old time form. The Patriots made hits at opportune times and this, coupled with inferior fielding of the Spinners, made the victory comparatively easy.

Bentley's catch was in the third inning when Smith was on second and Goodman sent a long drive to right garden. Had Bentley missed the ball Smith would have scored.

The Patriots made two runs in the first inning, when Rickard and Doyle led off with singles. Fuller hit an easy grounder to Jenkins, who threw to third to catch Rickard but was too late. Bently flew out to first. Doak singled and Rickard and Doyle scored.

In the fourth inning Rickard walked. Doyle singled. Fuller went out at first, Bentley went out pitcher to first. Doak went to first on four bad ones. Clapp hit an easy grounder to second, but was safe on Sharpe's error, Rickard scoring. Corwin and Nippert followed with singles scoring the three men ahead of them.

Corwin scored in the sixth when he led off with a double bagger and came in on Eldridge's single. Doak made the last run in the eighth, leading off with a single, advancing to third on Jenkins errors, and scoring on Corwin's sacrifice foul fly.

HORNETS STUNG AGAIN YESTERDAY

Spartanburg, S. C., May 12.—The Red Sox walked away with the second of the series with Charlotte by superior base-running. Hankie lost his head several times with men on bases and simply held the ball while runners advanced at will. Smith walked more men than Hankie, but his support was excellent, while the Hornets were out of shape.

DIAMOND DUST

Let's not lose a game this week.

Charlotte is no longer on the front pew.

We have a new neighbor with us at the top of the roost this morning.

If the Hornets are so easy for Spartanburg, what a cinch Doyle's men will have next week.

The Twins must be reckoned with in this league.

Won't there be something doing when the Twins and Patriots get together again?

We will have the best teams in the league to fight next week.

These North Carolina teams seem to be stronger than those of the Palmetto State.

When it comes to managers, Doyle puts them all in the shade.

The beauty of Corwin's hitting is that they come when they are needed to make runs.

Probably you have observed that Charlie Doak is batting better than ever.

Time to hang crepe on the gate to Charlotte's baseball park.

Bill Laval seems determined to show those Hornets no mercy at all.

Today is the time for releasing players around the circuit and bringing the team within the salary limit.

You can tell the size of some managers by the cheap way they have of showing a little authority.

The grandstand didn't hesitate to show what it thought of Smith's conduct.

Bet Smith will be afraid to go back to Greenville if he loses today.

Poor Anderson! And we really do like Kelly and his men.

DOUBLE HEADER WENT TO TWINS

Anderson, S. C., May 12.—In all departments and at all stages of the game today the locals were outclassed by the Twins. Both games were seven innings by agreement. In the first inning of the first game with the bases full Shumaker for Winston lifted the ball over the left field fence for a home-run. Anderson made a desperate spurt in the seventh inning but failed to overcome the long lead of the visitors. The start of Winston in the first inning of the second game seemed to demoralize the Electricians. The locals didn't reach third base during the entire second game.

REFUSES TO RESIGN UNDER REBEL FIRE

Diaz Announces Determination to Hold on While Revoluttion Lasts.

Special to Telegram.

Mexico City, May 12.—Minister of Finance Jose Yves Limantour announced tonight that President Diaz will not resign while Mexico is in such a great state of unrest, but has demanded of the insurrectos the terms on which they expect him to willingly resign. He is awaiting their reply to this demand. He told the rebels that he would lay down the reins of government when he was fully convinced that this course could be taken without danger of anarchy following.

DEFRAUDED OF DUTIES.

Government in Position to Make Substantial Recoveries.

Washington, D. C., May 12.—Frauds alleged to have been committed in connection with the undervaluation of imports of cutlery have been under investigation by the Treasury Department for several weeks. It is said that the evidence secured thus far promises to put the government in a position to make substantial recoveries of the duties of which it is said to have been defrauded.

Secretary MacVeagh had a long conference today with Collector Loeb regarding the undervaluations.

FATAL PISTOL DUEL.

Prominent Lawyer Killed and Tinsmith Fatally Injured.

Jacksonville, Fla., May 12.—W. C. Vaughn, a prominent lawyer, was killed, and Charles H. Johnson, a tinsmith, probably fatally injured in a pistol fight in the former's office this afternoon. Johnson had called to see Vaughn regarding a debt, it is said. Vaughn is supposed to have fired five shots after being shot through the heart, while Johnson fired four. There were no witnesses to the tragedy.

Help for All

Andrew Carnegie once suggested as an epitaph for his own tombstone what he said was the secret of his success: "Here lies a man who surrounded himself with men abler than himself."

Many able people are working for you, scientists, inventors, manufacturers, all trying to make something *you* want. Do you use their brains and their efforts—"surround yourself with them"—or do you plod along by yourself, years behind the times?

Take your own home. Have you your share of modern improvements there—money-saving, labor-saving, health-promoting? One of the most important of these is a New Perfection Oil Cook-stove.

A New Perfection stove never overheats a kitchen. It saves your strength. It saves fuel and time. With the New Perfection oven with the glass doors you can go on with your ironing or any other work, and still be sure at a glance the joint is roasting properly.

New Perfection WICK BLUE FLAME Oil Cook-stove

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc.

NORTH STATE CAPITAL NEWS

Special to Telegram.

Raleigh, May 12.—Commissioner of Labor and Printing M. L. Shipman is just back from Winston-Salem, where he attended the annual session of the North Carolina Grand Lodge of Odd Fellows, which he says was signally successful both from the viewpoint of business accomplished in the sessions and in the entertainment that was accorded by the Winston-Salem Odd Fellows and people generally. He was elected Grand Warden in connection with the selection of the grand officers for the next year. The Grand Lodge accepted the invitation to come to Raleigh next May.

The Literary and Historical Association of North Carolina, Professor E. K. Graham, of the University of North Carolina, president, and Clarance H. Poe, of Raleigh, secretary, is moving in the direction of carrying into effect the plans of the association for extension work in the way of addresses in leading towns of the state by prominent literary men of the state under the auspices of the local literary clubs. The idea is to have series of lectures on successive nights in the different towns under the auspices of some college or the local literary and historical and school enthusiasts. Among the speakers that Secretary Poe is in position to induce to fill engagements of this kind are Dr. Edwin Mims, Dr. E. K. Graham, University of North Carolina; Dr. W. L. Poteat, Wake Forest; Dr. D. H. Hill, A. & M. College; Prof. M. G. Fulton and Prof. M. G. Connell, Davidson College; Prof. E. C. Brooks and Dr. Few of Trinity. The plan also contemplates cooperation with local book clubs for the addresses indicated. The State Literary and Historical Association will continue to hold its annual sessions in Raleigh as heretofore. There has been effort recently to induce a change to rotating about the state.

The Federal court for Raleigh convenes May 23 to continue three weeks or longer, in fact the indications are that with the noted $1,500,000 damage suit of Ware-Kramer Tobacco Co. vs. American Tobacco Co. to be tried the court may be going on for more than a month. In the routine work of the court the cases will be called in this order: Tuesday, May 23, Chatham, Moore, Harnett, Sampson, Lee and Cumberland; Wednesday, Durham, Granville, Person, Franklin, Vance; Thursday, Nash, Wayne, Wilson, Richmond and Johnston; Friday, Wake; Saturday, Edgecombe, Halifax, Northampton, Warren, Pitt. The damage suit of Ware-Kramer Co. vs. American Tobacco Co. will be taken up just as soon as the criminal side of the docket is disposed of and it promises to be an especially hard fought legal battle, involving the damage for destruction of the business of the Ware-Kramer Company as cigarette manufacturers through the trust methods of crushing competition.

It is learned that work is now under way on the construction of the long projected Atlantic & Western railroad from Sanford to Broadway. And there are assurances of its speedy completion.

In connection with the announcement that the North Carolina Child Labor Committee will hold a special meeting for reorganization with more active cooperation of men actually engaged in the cotton mill business May 31 at the University of North Carolina in connection with the University commencement season the names of those now constituting the committee will be of interest. They are: C. B. Aycock, J. W. Bailey, Bishop J. B. Cheshire, Dr. H. A. Royster, Prof. W. E. Stone, Dr. R. T. Vann and C. H. Poe, Raleigh; Rev. R. F. Campbell, Raleigh; Rev. J. J. Hill, Fayetteville; Thomas J. Jarvis, Greenville; H. A. Page, Aberdeen; Dr. W. L. Poteat, Wake Forest; J. I. Foust, Greensboro; Bishop Robert Strange, Wilmington; J. S. Carr, Jr., Durham; Heriot Clarkson, Charlotte. The members of the committee believe that there should be a reorganization that will get the committee in closer touch with the cotton mill men and that they have now a plan of progressive child labor legislation that will meet the heartiest cooperation of the mill men the most prominent among whom will be urged to attend the special reorganization meeting at Chapel Hill for May 31 as announced at the called meeting last night.

NOBLES OF THE MYSTIC SHRINE "HAVA-GOOD-TIME" IN NEWBERN

New Bern, May 12.—Today was a day that will long exist in the memory of hundreds of Mystic Shriners of this State, especially the local members of that organization. This morning, a special train arrived from the west with a large number of the visiting members on board and the train from Wilmington also brought in a number of brethren, who had come over in search of the oasis. A delegation from the local lodge met the visitors at the depot and escorted them to Stewart's hall, where they were made to "Feel-to-hum" by every member of the lodge.

After a short rest, the novices were called before the nobles and the day's program, which consisted of rolling peanuts around the block with a crowbar, to shine shoes to the amount of $2.00, to count a bushel of peas and a number of other stunts, was read to them. Only the novices were allowed to participate in these events, and as might be imagined they were very much elated over this.

Each of the novices were numbered and compelled to comply with the instructions on the program, following his number, and at 1 o'clock they reported at the headquarters and began to carry out the duties allotted to them. All of these were extremely ludierous and evoked much merriment from hundreds of interested spectators, who had been quietly "Tipped off" to be on hand and watch the fun.

At 4:30 the last novice had completed the task allotted to him and they returned to headquarters to make preparations for the parade, which was scheduled to be given at 4:37. Considerable time was taken up in making preparations for this event and it was after 5 o'clock before this gorgeous and scintillating galaxy of nobles and novices were given the order to proceed.

The procession had been formed in front of the Gaston hotel, and three thousand or more spectators were watching with interest. In front of the long line of merrymarkers was a cordon of policemen, followed by a gorgeous float, on which were seated a number of nobles of the highest degree. There were a number of very attractive features in the parade, but without any doubt the most interesting feature was the marching of the Arab Patrol of Charlotte. This body numbering about 30 men and with their gorgeous uniforms and excellent discipline evoked much applause from the thousands of spectators.

Tonight a reception at the Elks hall, and also a dance at the club and a reception at Stanley Hall was followed by a ceremonial session at the Opera House, which lasted until the wee small hours.

Tomorrow morning at 10 o'clock, the local shriners will give the visitors a sail down Neuse river, on the Elfrida and the Revenue Cutter Pimlico. This will conclude the session and upon their return to this city they will make preparations to return to their respective homes. Everything possible is being done for the comfort and amusement of the visitors and during the remainder of their visit they are urged to make themselves "Feel-to-hum" and "Hava-good-time."

Silk Mill Begins Operations in City High Point

High Point, May 12.—Last Monday there was inaugurated in this city the manufacturing of a product which is of more than ordinary importance to the South. This is the weaving of different kinds of fine silk dress goods in the new weaving mill recently added to Stehli & Co.'s silk mill. August Von Eudt, of Germany, an expert silk weaver, is the superintendent of this department. Mr. Von Eudt has for his assistants two silk weavers, ladies from the large Lancashire, Pa., silk mill, which is also owned by Stehli & Co.

This Is The Last Week!

MONDAY, MAY 15th IS THE LAST DAY!

That you can get the new Telegram for the old subscription price of $3.00 per year. Positively no further extension will be given, nor will any subscription be accepted other than at the $5.00 per year rate after May 15th. If you send your subscription by mail or letter **it must reach The Telegram on or before May 15th, or bear post-mark before twelve o'clock midnight May 15th.**

This means that those subscribers, old and new, who have not availed themselves of the opportunity to get The Telegram for the coming year at the old price of $3.00 have another chance. You can, by sending $3.00 at any time before May 15th, have The Telegram delivered or mailed to your address until May 1st,1912. If you are an old subscriber you will have to first pay your subscription to May 1st, 1911, before you can take advantage of this offer. If you want to subscribe for The Telegram, just send $3.00.

The Subscription Price Now $5 Per Year

The subscription rates of The Telegram are advanced to $5.00 a year, 10 cents a week, effective May 1st. No extension has been made of the date of the advance, the extension only applies to those people who wish to avail themselves of the opportunity to get the benefit of the old rate for another year by paying in advance.

The Improvements Made

The Telegram has been improved. If you have not had a copy and would like to look over one, 'phone the Office, No. 59 and the Carrier Boy in your section will deliver you a sample free of charge, or if you are out of town a copy will be mailed you. If you haven't kept up with The Telegram's improvements, get a sample. It will not cost you anything, and you will appreciate the offer that is being made you and take advantage of the opportunity to get this "GREENSBORO'S GROWING DAILY" for twelve months for $3.00.

HELP THE CARRIERS

The boys who deliver The Telegram are interested in this offer, because every new subscriber means more money to them. The Management of the paper has offered the Boys a handsome commission for all the orders that they bring in before May 15th. If you don't take The Telegram, you will probably have a visit from one of these boys. Give him your order and pay him the $3.00, just be careful to notice that he has in his possession a letter of authority from the management authorizing him to solicit and collect money and that he carries an official receipt. **DON'T MISS THIS OPPORTUNITY!**

SUGGESTIVE QUESTIONS

On the Sunday School Lesson by Rev. Dr. Linscott for the International Press Bible Question Club.

(Copyright 1910 by Rev. T. S. Linscott, D.D.)

May 14th, 1911.

(Copyright, 1910, by Rev. T. S. Linscott, D.D.)

Isaiah's Vision and Call to Service. (Home Missionary Lesson.) Isa. vi.

Golden text—I heard the voice of the Lord, saying, Whom shall I send, and who will go for us? Then said I, here am I, send me. Isa. vi:8.

(1.) Verses 1-4—Why did God give this vision to Isaiah?

(2.) Do you think that any such vision needs repeating? Why?

(3.) When we have any special Divine illumination what is the advantage of connecting it with some event, or putting down the date, as Isaiah seems to have done?

(4.) Did Isaiah or anybody else ever see with the outward eyes, the actual eternal God, and will He ever be so seen?

(5.) Is there any reason to think that Seraphim, or angels, are to be seen everywhere in the universe, if we had the media through which to see them?

(6.) Verse 5—How was it that the sight of the Lord made Isaiah conscious of his sinfulness?

(7.) What if any reason is there to conclude that the use of coarse slang, or profanity, proves the user to be an impure man?

(8.) Which is the more effectual way to reveal to sinners their guilt, to correct them with words, or to live pure lives before them? Why?

(9.) What effect does the teaching of the spotless purity of Jesus have, upon sinful men?

(10.) Verses 6-7—What is God's attitude to sinners who are conscious of, and loathe themselves because of their sins?

(11.) What is the "live coal," with which the Seraphim touched the lips of Isaiah, emblematic of?

(12.) What actually transpires in a man's spiritual nature, when he comes to God for the pardon of his sins?

(13.) What reason is there to think that angels, or spirits, have anything to do with the salvation, or the spiritual comfort of men and women today?

(14.) Verse 8—What class of men and women does God need, and call to be missionaries?

(15.) What are the indications that God is calling to-day, with a loud voice, for missionaries? (This is one of the questions which may be answered in writing by members of the club.)

(16.) Is it possible for any person to be in harmony with God who is not willing to be a missionary, or to support a missionary, if the Lord should so demand?

(17.) What reasons are there to conclude that it is the duty of pastors in these days, to look out for suitable young men, and call them to missionary work?

(18.) Verses 9-10—The prophet was being sent to a people familiar with God's message, and hardened in sin: what is generally the doom of such people?

(19.) What is the use of continuing to preach to a gospel hardened people?

(20.) When sinners hear the call of God to repentance, and heed it not, what change takes place in them for better or worse?

(21.) Verses 11-13—It is very trying to preach without results, but is there anything in this story to indicate that in time, a faithful servant of God will surely cause some to hear and turn to the Lord?

Lesson for Sunday, May 21st, 1911. Song of the Vineyard. (A Temperance Lesson.) Isa. v:1-12.

THE INTERNATIONAL PRESS BIBLE QUESTION CLUB.

We again call attention to our Local Club in connection with the I. P. B. Q. C. We are safe in saying that nothing in the line of Bible study has so profoundly impressed the people of Greensboro as the "Suggestive Questions" which we print today for the ninth week. If any of our readers do not read these questions they had better commence, or they will soon begin to feel lonesome.

If you are already a subscriber to The Telegram, can you spend $5.00 better than by ordering this paper for 52 weeks, or to the end of this contest, for some worthy young person, that he or she may take up the course of reading and compete for the prizes. Only one person can use one paper, as there is only one coupon in each, and that is sufficient only for one person to certify that the reading has been done. Now is the time to put the Telegram into the hands of all who should take up the study of these "Suggestive Questions," so as to be in good trim to start when the contest commences in five weeks from now. If you can induce any person, young or old, to take up this easy course of study, you will do him or her more good than you can ever estimate. Now is the time to come into line yourself and induce others to do so. Use the attached coupon for your order.

SAVED AT BRINK OF FALLS.

Woman Who Attempted Suicide Rescued at Very Edge of Plunge.

Niagara Falls, N. Y., May 12.—Fighting with grim determination to end her life, Mrs. Elizabeth Hartley, of Buffalo, 60 years old, was rescued from death at the very brink of the cataract today, by Constable Thomas Harrington, who faced constant danger of being carried over the falls with the struggling woman.

Mrs. Hartley entered the water about 60 feet above the falls, but her dress caught on a jagged rock 15 feet from the brink of the falls, and there she was held until Harrington reached the bank with a pike pole and hooked it into her dress. With her arms pinioned by the terrific current, Mrs. Hartley tried to get free from the pole, but finally, weakened by her struggles, she became quiet and was dragged ashore. At the hospital where she was taken it is said she cannot live. On the river bank was found a letter and a bunch of flowers. The letter read:

"No longer to be treated as a thing demented."

Word received from Buffalo said that Mrs. Hartley was an inmate of the State hospital, who had been on parole for several weeks and left the institution today to take a position in a private family. She had shown no signs of mental trouble for three months.

"What do you expect to be when you become of age, my little man?" asked a visitor.

"Twenty-one, sir!" was the ingenuous reply.

Stop Experimenting! Take a 'Cascaret'

Nearly All Our Ills Come through Inactive Liver and Bowels. Millions of Folks Keep Feeling Good With Cascarets.

One must keep the bowels clean. Do it just the same as you keep your skin clean. Not by severe applications, applied at rare intervals. But by gentle and regular efforts. It pays immensely.

Many people dread physic. They think of castor oil, of salts and cathartics. They shrink from the after-effects—griping and weakness. So they postpone the dose until they are costive or bilious. Then they do the cleaning in a heroic way. That is all wrong.

Cascarets are a gentle laxative. They are just as effective as anything else, and more natural. And they are pleasant—a candy. They are made to carry with you. Take one just as soon as you need it. You'll know. The result is your bowels are always active. You always feel at your best. Try a 10 cent box of Cascarets. You'll never again go without them.

FEDERAL MONEY FOR GOOD ROADS

Will Be Used In Establishing Rural Mail Routes.

THIS DODGES CONSTITUTION.

Senator Swanson of Virginia Is Back of the Movement, Which Is Popular In Country Districts—Bald Head and Whiskers Debate Leads to Offers of Vaudeville Engagements.

By ARTHUR W. DUNN.

Washington, May 12.—(Special.)—Efforts to expend national money on good roads have always been blocked by assertions that there was no constitutional authority for such purpose, but a method has been found to overcome or get around the sacred document in this regard.

Senator Swanson of Virginia has introduced a bill appropriating $100,000,000 of national money for good roads to be expended in the next five years. He provides that it shall be expended upon roads used as post roads and rural delivery routes. They are the same thing.

If the government marks out a route for a rural delivery carrier to follow it becomes a post road. The constitution gives congress authority to "establish postoffices and post roads." With authority to establish postoffices has been the authority to build postoffices. Thousands of such buildings have been provided. By establishing post roads congress establishes its power to improve them. There is no longer a constitutional barrier.

It Is Sure to Come.

It may not be the Swanson bill, but it will be some bill which will authorize a large expenditure for the improvement of the rural delivery post roads. It is sure to come. The rural delivery service is becoming more popular every year, and every year there is a greater demand for better roads.

Senator Swanson is a member of the postoffice committee and will have an opportunity to push his bill. Moreover, there is a growing belief in farming communities that they are not getting their share of the federal appropriations, and the rural communities still control congress.

Wanted on Vaudeville Circuit.

Soon after a bunch of Washington newspaper men held their great "no hair and whiskers" stunt applications came in to get prices on the famous quartet. Joe Cannon and Tom Carter, representing the whiskers side, and Bob Taylor and Nick Longworth, representing the baldheaded side, for an indefinite tour of the vaudeville circuit.

It was not insisted that Umpire Champ Clark should accompany the quartet, although it was believed that he could increase the gate receipts. "What a barrel of money a fellow could make if he could take that bunch on the road," remarked one of the newspaper men. "My wife was dead set against my coming here," Speaker Clark told the audience. "She said it was a silly performance, but I don't know when I have enjoyed an evening more than tonight."

Byrnes Owned Up.

Congressman Byrnes had a chance at the tariff recently. In the beginning he said, "Among the tenderfoot congressmen whose names have been added to the directory this session I presume I am the youngest and tenderest."

And no one disputed him. They told us that Byrnes was coming—by that I mean the South Carolina papers—and they said he would "wake 'em up some day." Although he is youthful, that did not deter him from sailing right into Jim Mann and John Dalzell, Joe Cannon and some of the old leaders on the Republican side. He wasn't afraid of them.

He Was Also a Son-in-law.

We were talking about the relative prominence of men in the house, and mention was made of Congressman Longworth, the son-in-law of the former president. "He married prominence," I remarked.

"Hold on," said Congressman Gardner of Massachusetts. "You are getting on dangerous ground now. Please remember that I have been a son-in-law."

And I at once recalled that for the past ten years whenever Gardner did anything notable—and he has done many in that time—it was always stated that he was the son-in-law of Senator Lodge. I have known a number of men who figured in the "son-in-law" category, but only the most mediocre accepted it without becoming restive and uncomfortable.

Troops on the Border.

Senator Smith of Michigan is one of the men the president has taken into his confidence, and he believes that the president performed a great patriotic duty when he sent the troops to the Mexican border. Recently the Michigan senator received a letter from a friend who lives on the border which said that only the presence of troops could prevent an international complication.

The writer points out that if it had not been for the presence of the troops on at least one occasion when he witnessed a fight both regulars and insurgents would have crossed into the United States and used our soil as a place of offense and defense.

CARS

Cars Are Being Entered in Greensboro to Henderson Reliability Run.

The following telegram was received yesterday from J. P. Taylor, President of the Chamber of Commerce at Henderson: "President Chamber of Commerce, Greensboro. Our Chamber of Commerce welcomes you to Henderson Wednesday night. A committee will meet you at Oxford."

Automobide dealers are taking great interest in the reliability tour from Greensboro to Henderson next week. The Chamber of Commerce mailed out entry blanks to dealers throughout the State the first of this week and while they did not expect to receive any entries before the first of next week, they have already received several.

The American Motor Company of this city has entered an Overland "Always Going."

R. Y. McAden, president of the Louisburg Automobile and Machine Company of Louisburg, agent at that point for the Overland has entered a four passenger Overland touring car No. 54. Mr. McAden will arrive in Greensboro Sunday or Monday. In addition to being president of the Louisburg Automobile and Machine Company and an enthusiastic automobilist, Mr. McAden is president of the Merchants' and Farmers' bank at Louisburg.

Garland Ricks, agent for the Abbott-Detroit, has also entered a car for the tour. The car he has entered is now making a tour in the eastern part of the State.

The people in all the towns between here and Henderson are taking great interest in the tour. Letters are being received from the mayors of different towns, insisting that stops be made at each place.

A great number of private cars from Greensboro will enter this tour, and it is hoped that every automobile owner in the city, who possibly can, will make this trip as it will be a very pleasant one.

Letters have been received from Burlington stating that several citizens from that live city will accompany the party from Burlington.

DRAFTING NEW TREATY.

Work Is Begun By United States, England, Russia and Japan.

Washington, D. C., May 12.—Representatives of the governments of the United States, Great Britain, Russia and Japan met at the State Department today to begin negotiations for the drafting of a treaty to afford further protection to the seals, other sea mammals and plumage birds in the North Pacific Sea. The scope of the work to be undetaken was discussed, but nothing definite accomplished, and the meetings will continue.

Excursion To Charlotte.

The First Reformed Sunday school of High Point will run an excursion from Greensboro to Charlotte on Saturday, May 20th, leaving Greensboro at 7:30 a. m.

NOTICE TO STOCKHOLDERS OF GREENSBORO BOILER & MACHINE COMPANY.

At a meeting of the Board of Directors of the Greensboro Boiler & Machine Company the following resolution was adopted by a majority of the whole board, as follows:

Resolved. That in the judgment of this Board it is advisable and for the benefit of the Greensboro Boiler and Machine Company that the same should be forthwith dissolved, and to that end it is ordered that a meeting of the stockholders be held on Thursday the 8th day of June, 1911, at the office of the company in Greensboro at 3:00 p. m. to take action upon this resolution, and further that the Secretary forthwith give notice of the said meeting and of the adoption of this resolution within ten (10) days of this date by publishing the said resolution in the Greensboro Telegram, a newspaper published in the City of Greensboro, for at least four (4) weeks, once a week successively, and by mailing a written or printed copy of the said to each stockholder of this company in the United States.

In conformity with said resolution of the Board of Directors notice is hereby given to all stockholders of the said company that a meeting of the stockholders of the company will be held in the office of the company in the city of Greensboro on Thursday the 8th day of June, 1911, at 3:00 o'clock p. m. to take action upon said resolution and upon the question of dissolving the said corporation.

J. W. McLENNAN,
Secretary and Treasurer.

VIEWS OF JUORNAL OF COMMERCE.

New York, May 12.—The Journal of Commerce says:

An utter absence of all speculative factors makes the cotton goods market strength in evidence now seem more impressive than any of the flurries that have preceded it during the life of the current cotton crop. Buyers who are operating carefully are doing so because they must have merchandise and because they know it is relatively cheap. This conviction is slowly spreading to the smaller buyers and they are taking in small lots for spot and nearby delivery. Manufacturers are making little effort to sell goods at the prices bid, as they are not making any money and they are not obligating themselves on long contracts, until buyers see more clearly that they can use merchandise steadily and will be willing to because they cannot get cotton to run with.

COTTON LETTER TO J. E. LATHAM.

New Orleans, La., May 12.—Of the two alternatives—Cooler weather from the Northwest, or big rains from the Southwest—the latter occurred over night. There were rather heavy rains over central and South Texas, which coming after the wet spell of last week, must be rather unfavorable in causing further disturbance to field work. There was hardly any change in temperatures and they were quite seasonable over the belt. Indications are for unsettled, showery weather in the western States and probably in Arkansas but partly cloudy to fair elsewhere.

Liverpool seems inclined to halt on old crops which did not meet yesterday's advance in New York, but new crops were six higher as due. Spots 7 higher, sales 4,000. The market ruled easier soon after the opening today as news from New York seemed to suggest realizing in old crops and some reaction. New crops shared in the dip but there is unquestionably a large short interest in new crops and the discount is too great for bear operations regardless of weather conditions.

Forwarding from Liverpool to mills this week are 61,000 vs 50,000 last year and and 55,000 year before last. A traveling man in Oklahoma says: "Crop very backward. Plant small but good stands were germination complete. Acreage increase is pretty large as new land opened by heavy immigration. Planting will be completed by 20th."

REVENUE OFFICERS IN EIGHT WITH WILKES BLOCKADERS

A message received last night at United States Marshal Logan's office from Wilkes county brought the news of a fight that occurred between revenue officers and moonshiners on last Wednesday. One of the men, Kelly Billings, was wounded, but not seriously and he will be arrested as soon as he can be found and placed in jail. Another man, Samuel Watson, was arrested and carried to Wilkesboro and placed in jail in default of a $500 bond.

Deputy Collector W. W. Harkins and Deputy Marshals T. A. Grant and C. H. Holland went to the home of Thomas Billings, in the Basin Creek settlement, in Wilkes, looking for Frank Billings and Joseph King. While there they heard men approaching and going outside halted the men. A regular shooting scrap followed, during which one of the men, Kelly Billings, was shot twice.

The shooting occurred in a lawless section and an officer virtually takes his life in his hands when he enters that section alone, the officials say. The men wanted were charged with blockading.

DONNEL SUES GREENSBORO FOR DAMAGES

Summons has been issued by Superior Court Clerk Forbis on the City of Greensboro, this being the preliminary action in a suit entitled George Donnell vs. City of Greensboro. The complaint in the case has not yet been filed, but it is understood that the plaintiff is seeking to recover damages in the sum of $5,000 for damages to property by the sewer emptying thereon. Mr. Donnell lives northeast of the city and the septic tanks on North Buffalo empty on his property. Brooks and Hall represent the plaintiff, while A. Wayland Cooke represents the city.

Negro Convict Surrendered.

Sim Austin, a negro convict who escaped from the Guilford county road gang about eleven months ago, came to the city and surrendered yesterday afternoon. He was serving a sentence of twelve months for assault and had but one month of his time to serve when he escaped. He gave as the reason for surrendering that he was tired of dodging the officers of the law and wanted to serve the remaining month of his time and be a free man.

CITY TO SUE COUNTY FOR COURT COSTS

At yesterday's meeting of the Board of Commissioners no formal business was transacted the commissioners merely discussing the various phases of the city's work. The city attorney was instructed to enter a suit against the County Commissioners to secure the payment of all costs in cases tried in Municipal Court in which the defendants were sent to the roads or workhouse to work out the costs. For some time this matter has been pending, the county refusing to pay more than half the costs. If the city wins it will mean the addition of something like $2,000 to the funds of the municipality.

The commissioners are also considering the advisability of working some of the men convicted in Municipal Court on the city streets. The city clerk has been instructed to ascertain just how many defendants were given road sentences during the past two years and the length of each sentence. It is believed that the men could be worked to advantage on the city streets.

The student of American history was holding forth. "I am a great admirer of Grant," he said. "I am convinced that he was one of the greatest men we ever had." "Aw, quit your kiddin'," replied the baseball fan. "Lobert can put it all over Grant. We got the big end of that trade, all right."

Whitsett Institute Prepares for Annual Commencement Period

Whitsett Institute, May 12.—Unusual interest attaches to the commencement exercises here this spring because of the fact that two very fine speakers are to be present. Dr. Wm. Louis Poteat the eloquent and learned president of Wake Forest College on Sunday, May 21 and the matchless orator, Gov. Wm. W. Kitchin on Monday, May 22.

Eight speakers have been elected from the graduating class, which numbers forty this year, to compete for the medal in oratory which is the most coveted prize in the school. There is great rivalry between the societies as to which representative shall win this honor.

The literary societies are having some work done in their halls looking forward to the receptions which are always a pleasant feature of the annual exercises. All the society prizes are distributed on Saturday, May 20, at which time they will hold their final meetings.

D. B. Johnson of the State Y. M. C. A. was here on Tuesday in the interest of the meeting of association men to be held again this year at Montreat.

Dr. Whitsett is away at the commencement exercises of the Monticello State High School where he delivers the literary address.

Prof. T. O. Pender of the music school of Dayton, Va., has been here this week.

Plans are being made to greatly improve the school chapel and do some other work upon the school building during the coming vacation.

Prof. Thos. R. Foust, the county superintendent of Guilford schools, will be here Wednesday next to address the teachers' normal class. This class has been well attended this term and good work has been done.

Aunt Sophia—And is Tommy a good little boy at school?

Tommy—Yes, auntie.

Aunt Sophia—and why is Tommy a good little boy?

Tommy—'Cause it's better fun to see the other boys get a tanin' than to get one yourself.—Tit-Bits.

"Why, three generations of my family had lived and died in this country," he boasted, "before your ancestors were able to raise the amount they needed to come over in the steerage."

"Very true. But those three generations of your family are still dead ones, I believe."—Chicago Record-Herald.
